How this works is once a spot opens up it goes to our current seasonal campers first then if you are a current seasonal camper and are interested in a spot then it goes by seniority (who's been here the longest). Then we go to the people who are interested in coming into our campground and go down the list and call. You have 24 hours to respond to us and let us know if you are interested or not, otherwise we move on to the next person. ***If you decline the spot when it's your turn you move to the bottom of the list**
